Price \_\_\_\_\_ Pick Up Date \_\_\_\_\_

The above-described puppy will be guaranteed free of any genetic defects of the hips for a period of up to 24 months of age. The eyes will be guaranteed for a period of up to 14 months of age. Such defects being present will entitle the owner to a full refund of the purchase price.

Owners will be required to show to the breeder veterinary receipts and medical records as indicated below. Breeder reserves the right to have an additional examination by the veterinary clinic of his/her choice prior to any refund for the pup. The guarantee is valid only if the following requirements are met.

- *A well puppy exam must be completed within seven working days after delivery. This does not apply of the pup was flown.*
- *Complete and accurate health records are maintained for a period of 24 months that includes all preventative care such as a vaccinations/heart wormer.*
- *Evaluation of hips will be completed by OFA when the puppy is between 24-26 months of age. This will be done at the owner's expense.*
- *In the event of a genetic defect covered by this guarantee, a detailed letter from your veterinarian describing the exact nature of the illness or injury must be presented for a refund.*

Evaluation of the hips by OFA with results of Fair, Good or Excellent are recognized as normal hips and an OFA number will be assigned. These ratings are recognized as healthy hips and will not be eligible for a refund. Eye evaluations that are assigned a CERF number are also considered normal and free of heritable eye disease and will not be eligible for a refund.

Any dog or puppy that is returned for a refund and shows signs of physical or mental abuse will void the terms of this contract and the new owner will not be entitled to a refund under these conditions. All pups must be spayed or neutered before the age of 8 months for this guarantee to cover the remaining months.

(The adult size range for your puppy is estimated to be \_\_\_\_ to \_\_\_\_ lbs full grown. There is no guarantee that the puppy will stay within this range; no refunds regarding the adult's size.)
